

BIBLIOGRAPHY – Dr. Byron Shaw

Publications

Shaw, B. 1965. A microscopic study of soils, soil genesis. (a research paper in college) 3/14/1965

Shaw, B.H. 1966. Hydrological relationships of podzolized soils. A thesis submitted in partial fulfillment of the requirements for the degree of Master of Science (Soil Science) at University of Wisconsin (Madison).

Shaw, B.H. and J.G. Iyer. 1966. Influence of forest canopy on the supply of soil moisture. Wisconsin Academy of Arts, Letters and Science. Appleton, WI.

Watterston, K.G., B.H. Shaw and S.A. Wilde. 1966. Texture of soil profile: its effect on the supply of soil water and the growth of forest stands. Soil Science Society of America. Stillwater, Oklahoma.

Shaw, B.H. and S.A. Wilde. 1967. Soil water supply: its consumption by forest stands and weed cover. Wisconsin Academy of Arts, Letters and Science. Appleton, WI.

Shaw, B.H. 1968. Ground vegetation as a hydrological factor of forest growth. Thesis submitted for Doctor of Philosophy (soils) at University of Wisconsin (Madison).

Shaw, B.H., R.R. Maeglin and S.A. Wilde. 1968. Soil water supply - its consumption by forest stands and weed cover. *Adv. Frontiers Plant Sci.* 21:141-155.

Wilde, S.A., B.H. Shaw and A.W. Fedkenheuer. 1968. Weeds as a factor depressing forest growth. *Weed Res.* 8 (3):196-204.

Shaw, B. and R. Anderson (co-directors and editors). 1974. Proceeding of Sand County Land Use Seminar UWSP. Sponsored by US Dept of Health, Education and Welfare. Office of Environmental Education Mini Grant Program. Nov. Dec. 1974

Shaw, B.H. 1978. Final report to Wisconsin Department of Natural Resources on the Big Eau Pleine Reservoir and watershed studies. University of Wisconsin, Stevens Point, WI.

Shaw, B.H., J.F. Sullivan and J. Vennie. 1980. The Big Eau Pleine Reservoir, Wisconsin. p 345-359. Paper No. 4-18. Proceedings of the Symposium on Surface Water Impoundments-Volume 1. Edited by H.G. Stefan.

Shaw, B.H. and C. F. Powers. 1980. Agricultural runoff and reservoir drawdown effects on a 2760 - hectare reservoir, final report. Corvallis, OR: U.S. Environmental Protection Agency, B803547-02-1, Environmental Research Laboratory; Cincinnati, OH: Center for Environmental Research Information. 45 pp.

Shaw, B.H. and C. F. Powers. 1983. Agricultural runoff and reservoir drawdown effects on a 2760 - hectare reservoir, summary report. Corvallis, OR: U.S. Environmental Protection Agency, Environmental Research Laboratory; Cincinnati, OH: Center for Environmental Research Information. 16 pp.

Shaw, B.H. 1985. Wisconsin groundwater quality. *Wisconsin Academy Review* 32 (1):3-4.

Shaw, B.H. and N. Nimphius. 1986. Acid rain measurements: what they mean. UW-Extension Bulletin G3305-2. 8 pp.

Nichols, S.A. and B.H. Shaw. 1986. Ecological life histories of the three aquatic nuisance plants, *Myriophyllum spicatum*, *Potamogeton crispus* and *Elodea canadensis*. *Hydrobiologia* 131 (1): 3-21.

Shaw, B.H. and J. O. Peterson. 1986. Improving your drinking water quality. UW-Extension Bulletin G3378. 7 pp.

Shaw, B.H. and J. Berndt. 1990. An assessment of the impact of stormwater disposal wells on groundwater quality. Final report to WI DNR. Madison, WI. 20 pp.

Mechenich, C., G. Gibson, J. Peterson, B. Shaw and G. Jackson. 1987. Maintaining Your Home Well Water System. UW-Extension, Madison, WI. 4 pp.

Osborne, T., C. Mechenich and B. Shaw. 1987. New Wisconsin Groundwater Center tackles non-point source contamination. National Water Well Association, Proceedings of the FOCUS Conference on Midwestern Groundwater Issues, April 21-23. Indianapolis, IN. pp. 37-58.

Sheffy, T., B.H. Shaw and T. May. 1988. Can acid rain damage lakes in Wisconsin. UW-Extension Bulletin G3305-6. 8 pp.

Mechenich, C., B.H. Shaw, F. Madison and P. Nowak. 1988. Chemical use and attitudes about groundwater in two Portage County subdivisions. Abstracts, AWRA, WI Section. 12th Annual Meeting. p. 28.

Shaw, B.H., C. Mechenich and L. Klessig. 1989. Interpreting lake water quality data: a citizen's guide. UW-Extension. 21 pp.

Berndt, J., B. Shaw and G. Nienke. 1989. Evaluation of the effect of stormwater disposal on groundwater quality: Final report. Project No. WR04 GWM WR990 S 2500. Wisconsin Department of Natural Resources, Madison, WI.

Curwen, D., G. Kraft, T. Osborne and B. Shaw. ca 1990. Demonstration of low input strategies for potato/vegetable production on irrigated sands. Final report – WDATCP Sustainable Agricultural Demonstration Project #8810.

Osborne, T., D. Curwen and B.H. Shaw. 1990. Quantifying groundwater quality and productivity effects of agricultural best management practices on irrigated sands. Proceedings of Symposium: Agricultural Impacts on Groundwater Quality. NWWA Groundwater Management Vol. 1 pp. 129-143.

Shaw, B.H., C. Mechenich and J. Peterson. 1990. Interpreting your water quality test results. UW-Extension. 4 pp.

Shaw, B. 1991. Draft letter to Representative Al Baldus, May 1, 1991 RE: Assembly Bill 74.

Shaw, B. and N. Turyk. 1992. A comparative study of nitrate-N loading to groundwater from mound, in ground pressure and at grade septic systems. Project final report to Wisconsin DNR Groundwater Management Section. Wisconsin Groundwater Research and Monitoring Program Reports. University of Wisconsin Water Resources Institute, Madison, WI. 65 pp. and appendix.

Shaw, B. and N. Turyk. 1992. Effects of barnyard management practices on groundwater quality in the Central Sands of Wisconsin. Project Final Report to WI DNR, Groundwater Management Section. UW-Stevens Point. 80 pp.

Shaw, B. and P. Trapp. 1993. Corn fertility management and nitrate leaching to groundwater in sandy soils. Final report to Wisconsin DNR and Golden Sands RC&D. UW-Stevens Point.

Shaw, B., P. Arntsen and W. VanRyswyk. 1993. Subdivision impacts on groundwater quality. Final report to Wisconsin DNR, Madison, WI. 140 pp. and appendix.

- Shaw, B. and S. Osesek. 1993. Evaluation of denitrification systems for improving groundwater quality from on-site waste disposal systems. Project mid report to Wisconsin DNR.
- Oberhofer, M., B.H. Shaw, J. Krueger and E. Hurley. 1993. Wind erosion impacts on water quality in the Sand Plain and Central Wisconsin. WI DNR. Madison. 174 pp. and appendix.
- Schwab, S., B.H. Shaw and D. Berge. 1993. Underground injection control demonstration project. UW-Stevens Point, WI. 41 pp.
- Kraft, G., B.H. Shaw and J. Peterson. 1993. Public groundwater education leading to active groundwater management. Proceedings of Symposium: Water Resources Education. A Lifetime of Learning. AWRA. Bellevue, WA. June 27-30, 1993. pp. 281-290.
- Shaw, B.H., C. Mechenich and L. Klessig. 1993. Understanding Lake Data. UW-Extension Bulletin G3582. Madison, WI. 20 pp.
- Turyk, N. and B.H. Shaw. 1993. Survey of homeowners/residents at Legend Lake, Menominee Reservation/County, Wisconsin. UW-Stevens Point, WI. 59 pp.
- Mechenich, C. and B.H. Shaw. 1994. Chemical use practices and opinions about groundwater contamination in two unsewered subdivisions. *Journal of Environmental Health* 56 (6): 17-22.
- Lueck, G. and B.H. Shaw. 1994. Onsite disposal of motor vehicle waste fluids: an evaluation of current methods and alternatives. Proceedings: Seventh International Symposium on Individual and Small Community Sewage Systems. American Society of Agricultural Engineering. Athens, GA. pp. 164-172.
- Heitman, M. and B.H. Shaw. 1994. Column leaching study of six pesticides, nitrate and chloride through four Wisconsin soils. Final Report to Wisconsin DNR Groundwater Management Section. Madison, WI. 116 pp.
- Weber, S., B.H. Shaw and S. A. Nichols. 1994. The aquatic macrophyte communities of eight northern Wisconsin flowages: St. Croix, Gile, Minong, Brule, Rainbow, Willow, Caldron Falls, Big Eau Pleine. WI DNR. Madison, WI. 70 pp.
- Osesek, S., B.H. Shaw and J. Graham. 1994. Design and optimization of two recirculating sand filter systems for nitrogen removal. Proceedings: Seventh International Symposium on Individual and Small Community Sewage Systems. American Society of Agricultural Engineering. Athens, GA. pp 319-328.
- Shaw, B.H. and N. Turyk. 1994. Nitrate-N loading to groundwater from pressurized mound, in ground pressure and at grade septic systems. Proceedings: Seventh International Symposium on Individual and Small Community Sewage Systems. American Society of Agricultural Engineering. Athens, GA. pp. 504-513.
- Shaw, B.H. 1994. Options for controlling nitrogen inputs to groundwater from on-site waste disposal. Proceedings: Nitrate in Wisconsin Groundwater: Strategies and Challenges. Sponsored by Central WI Groundwater Center, UWEX, Golden Sands RC&D, WI DNR and WI. Dept. of Health and Social Services. Groundwater Center, Stevens Point, WI. May 1994. pp. 49-51.
- Shaw, B.H. 1994. Nitrogen contamination sources. a look at relative contributions. Proceedings: Nitrate in Wisconsin Groundwater: Strategies and Challenges. Sponsored by Central WI Groundwater Center, UWEX, Golden Sands RC&D, WI DNR and WI. Dept. of Health and Social Services. Groundwater Center, Stevens Point, WI. May 1994. pp. 19-24.
